MYDNA

nono

NONO is a Mexican design brand with more than 10 years of experience dedicated to produce interior furniture, editions and custom made projects. In NONO we create pieces of extraordinary beauty meeting the singularity of each client with exclusive high quality designs.

The essence of NONO lies in the sensory of each of its shapes.

The trace of each piece follows a rhythm that delicately sculpts the most imposing forms to reveal the personality of every NONO piece. Each of our collections possess its own voice through its curves, shades and finishes, finding a stimulating language to make itself noticed in any space.

MYDNA

COLLECTION

MYDNA is a chic and contemporary storage system inspired by the DNA concept in two different ways, first its sophisticated, organic and stylish structure in the shape of double helix and second with a metaphorical statement which establishes that everything you place on its shelves defines a significant part of your personal identity.

MYDNA
