BOOLEANOS

nono

NONO is a Mexican design brand with more than 10 years of experience dedicated to produce interior furniture, editions and custom made projects. In NONO we create pieces of extraordinary beauty meeting the singularity of each client with exclusive high quality designs.

The essence of NONO lies in the sensory of each of its shapes.

The trace of each piece follows a rhythm that delicately sculpts the most imposing forms to reveal the personality of every NONO piece. Each of our collections possess its own voice through its curves, shades and finishes, finding a stimulating language to make itself noticed in any space.

BOOLEANOS

COLLECTION

Inspired by construction and deconstruction, depicted through the finishing of its materials Booleanos collection reflects the concept of involuntary interactions and unexpected intersections.

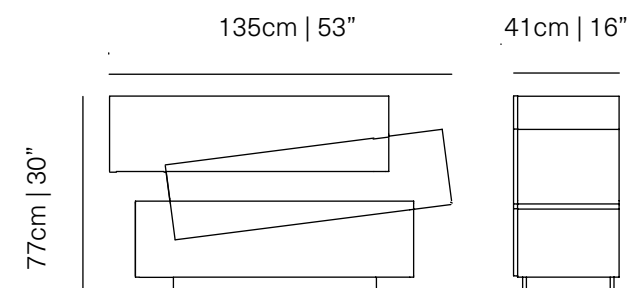

Conceived in 2012 for a design exhibition, Booleanos Collection stands out as the most complete NONO collection manufactured with particle boards and two different configurations of wood light and dark. These two variations recreate an alluring optical illusion defying the idea of balance and symmetry.

Each piece of the Booleanos Collection recreates an optical illusion that blurs the line between two- and three-dimensional perception in any cozy room or work space.
